

About the license of software

You need to buy one software to use per one personal computer.

The software of our company generates Identification ID for every personal computer which installed software for license management. And we have managed the license information on software by this ID.

In the personal computer which installed software, the lock of a license is in the closed state. In the state where the lock has closed, you can use software 30 days. Unless the lock is opened 30 days after, it becomes impossible for you to be able to continue using it.

Since you have the right of a key (password) to open the lock for one set in the bought software, you can continue using software by this key (password).

In order to issue the key (password) to open the lock, please tell our company the ID displayed with "registration" menu of software after installing software.

※The key (password) to open the lock for license management differs from serial № for installation.

The way of software registration

1. Install software in a personal computer (input serial № for installation).
2. Start software.
3. Choose "registration" menu (ID is displayed).
4. Demand the key (password) to open the lock from our company (an E-mail, FAX, Web).

※Web address https://jp.optosigma.com/en_jp/software__product-key

Please fill in a title as "The demand of a key (password) to open the lock" and inform us of the following contents.

We issue one key (password) to open the lock of software per ID number.

About the ID number of SGADVANCE, SGADVANCE+PLUS

The "ID number" of SGADVANCE or SGADVANCE+PLUS can be checked / registered in the following procedures.

1. Choose "registration" from the "information" on a menu.

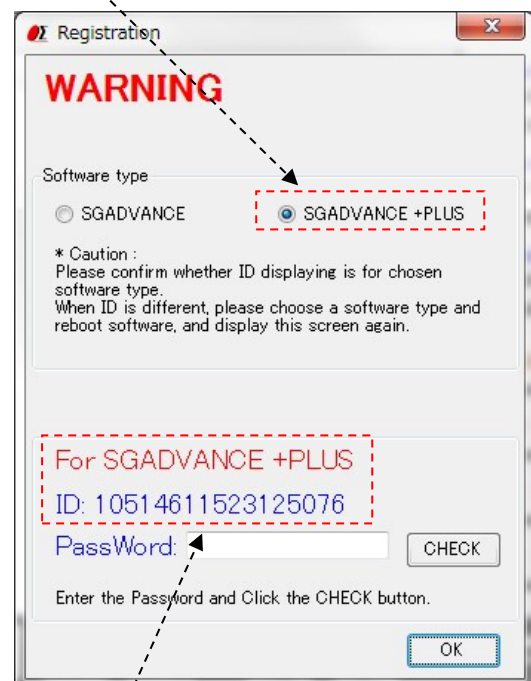

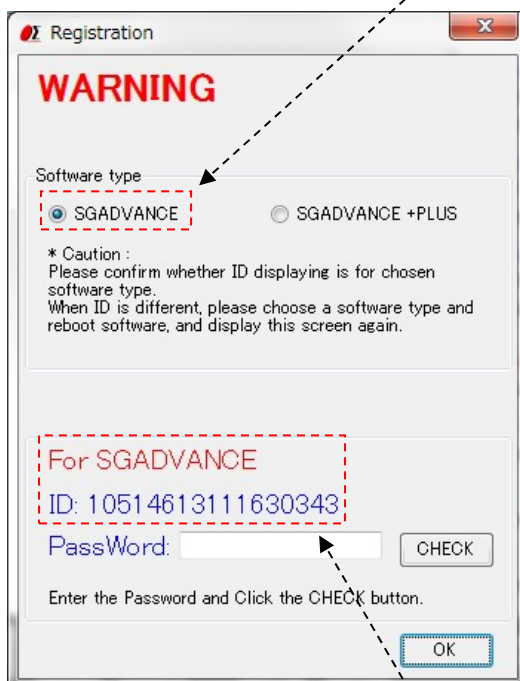

2. A registration screen is displayed and ID is displayed into it.

Even if you start software with the same PC, An ID number of SGADVANCE and the ID numbers of SGADVANCE +PLUS are different.

Please confirm whether displayed ID is for the software type which you want to register the key (password) to open the lock. When ID is not right, please choose software type and reboot software, and display a registration screen again.

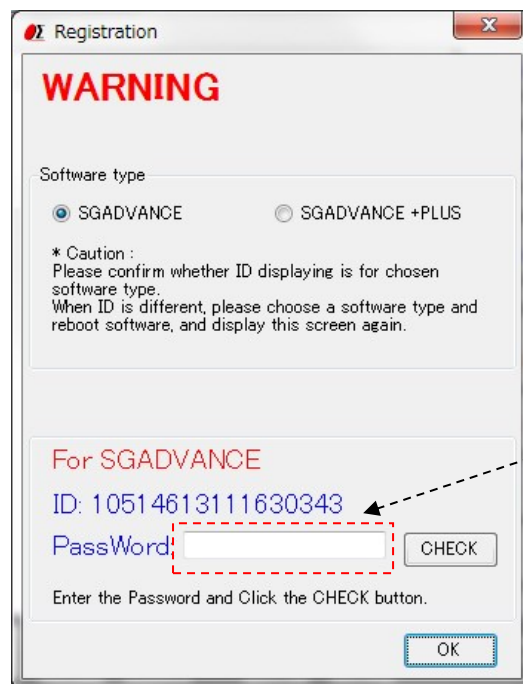

(2) When ID is not right, choose software type and reboot software.

(1) Confirm whether displayed ID is for the software type which you want to register.

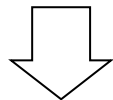

3. Please connect displayed ID to our company and get the password for opening a lock.

4. If the got password is entered, you can use it continuously.

The dialog box is titled "Registration" and features a red "WARNING" header. It contains two radio buttons for "Software type": "SGADVANCE" (selected) and "SGADVANCE +PLUS". A caution message states: "* Caution : Please confirm whether ID displaying is for chosen software type. When ID is different, please choose a software type and reboot software, and display this screen again." Below this, it says "For SGADVANCE" in red, followed by the ID "ID: 10514613111630343" in blue. A "PassWord:" label is next to an empty text input field, which is highlighted with a red dashed border. To the right of the input field is a "CHECK" button. At the bottom right is an "OK" button. A dashed arrow points from the text "Enter the got password (the key to open the lock) and click 'CHECK' button." to the password input field.

Enter the got password (the key to open the lock) and click "CHECK" button.

The dialog box is identical to the first one, but the "PassWord:" input field now displays the text "Password has registered". The "CHECK" button remains. A dashed arrow points from the text "It indicates that registration was completed." to the "Password has registered" text in the input field.

It indicates that registration was completed.
