

About the license of software

You need to buy one software to use per one personal computer.

The software of our company generates Identification ID for every personal computer which installed software for license management. And we have managed the license information on software by this ID.

In the personal computer which installed software, the lock of a license is in the closed state. In the state where the lock has closed, you can use software 30 days. Unless the lock is opened 30 days after, it becomes impossible for you to be able to continue using it.

Since you have the right of a key (password) to open the lock for one set in the bought software, you can continue using software by this key (password).

In order to issue the key (password) to open the lock, please tell our company the ID displayed with "registration" menu of software after installing software.

※The key (password) to open the lock for license management differs from serial № for installation.

The way of software registration

1. Install software in a personal computer (input serial № for installation).
2. Start software.
3. Choose "registration" menu (ID is displayed).
4. Demand the key (password) to open the lock from our company (an E-mail, FAX, Web).

※Web address https://www.global-optosigma.com/en_jp/software/product-key_en.html

Please fill in a title as "The demand of a key (password) to open the lock" and inform us of the following contents.

- Name
- Country, Address
- Phone Number, FAX Number, E-mail Address
