

About installation of SGADVANCE (+PLUS)

- How to install

The installation files are in the Setup folder.

Please perform "setup.exe" in the folder.

Please install by "administrator authority."

If a user do not have an administrator authority, right-click setup.exe with a mouse. Then a pop up menu is displayed, click "performing as an administrator" and install.

- Execution

Please perform by "administrator authority."

※If you do not perform by "administrator authority", neither data nor a movement environment is saved.
